DETAILED ACTION

Summary

On February 1, 2006, an Office Action was sent to the Applicant rejecting claims 1-37. On August 4, 2006, the Applicant responded with arguments.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-6, 8-9, 12-21, 23-24, 27-32, and 34-35 are rejected under 35 U.S.C. 103(a) as being unpatentable over Spencer (6,356,909) in view of Albazz (2002/0046081).

Spencer discloses the invention substantially as claimed, as set forth in the previous Office Action. However, Spencer does not disclose compliances rules. Albazz teaches the use of compliance rules for requests and bidding (p.5, 56-59 and p.8, 99-103). It would have been obvious to one having ordinary skill in the art at the time the

invention was made to incorporate compliance rules to allow the bidding to provide for the best possible responses.

Claims 7, 22, and 33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Spencer and Albazz as applied to claims 1 and 16, and in further view of Lee (US 2002/0615814), as set forth in the previous Office Action.

Claims 10-11, 25-26, and 36-37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Spencer and Albazz as applied to claims 1, 16, and 27 above, and in further view of Tenorio (US 2003/0208424), as set forth in the previous Office Action.

Response to Arguments

Applicant's arguments with respect to claims 1-37 have been considered but are moot in view of the new ground(s) of rejection.
